Janice Skau
7742 Pivot Street
Downey, California 90241

Dear Mr. and Mrs. Skau:

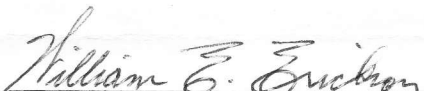

This Division has spent considerable time researching our records for the permits regarding the additions to your dwelling - the den in the rear of the kitchen and the utility room behind the garage.

Although our records seem to be misplaced, we have seen the job set of plans with our Division's and Planning Division's stamped approvals. This would indicate that permits were very probably issued at this site. Our records do not indicate any problems during construction (which would be a separate source of records). This Division would not object to accepting this work as properly approved.

If you have any questions, please do not hesitate to contact the undersigned at 869-7331, ext. 218.

Very truly yours,

City of Downey
