# Summary of the City of Manhattan Beach Toilet Retrofit Ordinance

**Water Conservation Certification:** Effective January 21, 2011, the Manhattan Beach City Council approved the Toilet Retrofit Ordinance, requiring that prior to transfer of ownership, dwellings meet specific water conserving standards for toilets. A plumbing permit is not required for this program; however, the owner may elect to obtain a permit and inspection for the retrofit.

The Toilet Retrofit Declaration requires inspection by and signature of a Licensed Plumber, or a Licensed General Contractor, or Licensed Professional Architect, or a Professional Home Inspector.
