Story of our Home

Our home is centrally located and provides easy access on and off the Peninsula. We enjoy fresh oranges, tangerines, lemons and grapefruit all year round from different varieties of mature citrus trees. The split-level floor plan allows our family to both entertain easily and provide quiet spaces for relaxation.

Our favorite room of the house is the living room with large glass windows overlooking the garden. The mud room/laundry room is a great size and has helped our family to keep their sports gear, uniforms, and equipment organized. We also really love our large storage loft in the garage with the pull-down ladder for easy access.

We will miss our annual ice-cream social with our neighbors, being able to walk to school and church, and the amazing hiking trails overlooking the Pacific Ocean that are just minutes away.

House Details:

5 Bedroom/3.5 bath

Double-paned Windows throughout
