If Seller shall be unwilling to undertake all corrective measures necessary to render the water potable or provide sufficient flow in accordance with said standards, Seller shall refund the deposit, together with all accumulated interest, if applicable, and this Contract shall terminate and the parties and broker(s) shall have no further obligation or claims toward each other.

Sample collecting and analytical testing are the only way to determine if a substance is actually mold or if mold is present at high levels. Moreover, there are no scientific guidelines to establish which types of mold or, at which levels, may or may not be harmful to a particular individual. Neither the listing broker nor the Seller is qualified to inspect the subject property for mold. Said inspection shall be made within ten (10) calendar days of the date of this Contract. If such inspection reveals any deficiency, Buyer(s) shall deliver a copy of the written report within five (5) calendar days of Buyers' receipt of same. Seller agrees that Seller will correct any defects in the dwelling required to obtain any certificate up to a cost of \$350.00.
