## **WHAT IS A WOOD DESTROYING PEST & ORGANISM INSPECTION REPORT? READ THIS DOCUMENT. IT EXPLAINS THE SCOPE AND LIMITATIONS OF A STRUCTURAL PEST CONTROL INSPECTION AND A WOOD DESTROYING PEST & ORGANISM INSPECTION REPORT.**

A Wood Destroying Pest & Organism Inspection Report contains findings as to the presence or absence of evidence of wood destroying pests and organisms in visible and accessible areas and contains recommendations for correcting any infestations or infections found. The contents of Wood Destroying Pest & Organism Inspection Reports are governed by the Structural Pest Control Act and regulations.

Some structures do not comply with building code requirements or may have structural, plumbing, electrical, mechanical, heating, air conditioning or other defects that do not pertain to wood destroying organisms. A Wood Destroying Pest & Organism Inspection Report does not contain information on such defects, if any, as they are not within the scope of the licenses of either this company, or it's employees.

The Structural Pest Control Act requires inspection of only those areas which are visible and accessible at the time of inspection. Some areas of the structure are not accessible to inspection, such as the interior of hollow walls, spaces between floors, areas concealed by carpeting, appliances, furniture or cabinets. Infestations or infections may be active in these areas without visible and accessible evidence. If you desire information about areas that were not inspected, a further inspection may be performed at an additional cost. Carpets, furniture or appliances are not moved and windows are not opened during a routine inspection.

**The exterior Surface of the roof was not inspected. If you want the water tightness of the roof determined, you should contact a roofing contractor who is licensed by the Contractor's State License Board.**

This company does not certify or guarantee against any leakage, such as (but not limited to) plumbing, appliances, walls, doors, windows, any type of seepage, roof or deck coverings. This company renders no guarantee, whatsoever, against any infection, infestation or any other adverse condition which may exist in such areas or may become visibly evident in such area after this date. Upon request, further inspection of these areas would be performed at an additional charge.

In the event damage or infestation described herein is later found to extend further than anticipated, our bid will not include such repairs. OWNER SHOULD BE AWARE OF THIS CLOSED BID WHEN CONTRACTING WITH OTHERS OR UNDERTAKING THE WORK HIMSELF/HERSELF.

If requested by the person ordering this report, a re-inspection of the structure will be performed. Such requests must be within four (4) months of the date of this inspection. Every re-inspection fee amount shall not exceed the original inspection fee.

Wall paper, stain, or interior painting are excluded from our contract. New wood exposed to the weather will be prime painted, only upon request at an additional expense.

This company will reinspect repairs done by others within four months of the original inspection. A charge, if any, can be no greater than the original inspection fee for each reinspection. The reinspection must be done within ten (10) working days of request. The reinspection is a visual inspection and if inspection of concealed areas is desired, inspection of work in progress will be necessary. Any guarantees must be received from parties performing repairs.

NOTICE: Reports on this structure prepared by various registered companies should list the same findings (i.e. termite infestations, termite damage, fungus damage, etc.). However, recommendations to correct these findings may vary from company to company. You have a right to seek a second opinion from another company.

This Wood Destroying Pest & Organisms Report DOES NOT INCLUDE MOLD or any mold like conditions. No reference will be made to mold or mold-like conditions. Mold is not a Wood Destroying Organism and is outside the scope of this report as defined by the Structural Pest Control Act. If you wish your property to be inspected for mold or mold like conditions, please contact the appropriate mold professional.

**CAUTION - PESTICIDES ARE TOXIC CHEMICALS.** Structural pest control companies are registered and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that, based on scientific evidence, there are no appreciable risks if proper use conditions are followed or that risks are weighted by benefits. The degree of risk depends on the degree of exposure, so exposure should be minimized.

### NOTICE TO OWNER

Under the California Mechanics Lien Law, any structural pest control company which contracts to do work for you, any contractor, subcontractor, laborer, supplier or other person who helps to improve your property, but is not paid for his or her work or supplies, has a right to enforce a claim against your property. This means that after a court hearing, your property could be sold by a court officer and the proceeds of the sale used to satisfy the indebtedness. This can happen even if you have paid your structural pest control company in full if the subcontractor, laborers or suppliers remain unpaid.

To preserve their right to file a claim or lien against your property, certain claimants such as subcontractors or material suppliers are required to provide you with a document entitled "Preliminary Notice." Prime contractors and laborers for wages do not have to provide this notice. A Preliminary Notice is not a lien against your property. Its purpose is to notify you of persons who may have a right to file a lien against your property if they are not paid.
