Understand Net Energy Metering (NEM) billing

You are billed annually for your energy charges because they can be offset by energy credits over your 12-month billing period. Any charges not offset by credits will become due at the end of your 12-month billing period.

You also receive a monthly bill. It reflects the minimum amount due each month, which supports the cost of maintenance and operation for providing electricity.

Stay informed about your annual bill

Your new charges Due monthly	***Year-to-date charges: -$43.78 Settled at end of 12-month billing period (on or about 12/18/22)***
Even if you have no year-to-date energy charges, you incur some monthly new charges.	*You do not owe any energy charges as of this month. Only make a payment for this month's new charges. Keep track of your year-to-date charges, as you may have charges in the future. If you are a net generator at the end of your 12-month billing period, you may be eligible for net surplus compensation.* ***You are in billing month 2 of 12.***

Your cost varies by time of day
