BUILDING AND SAFETY DIVISION APPROVAL NOTICE

- Your project plans have been stamped approved by the Building Division through the electronic plan check portal.
- After your plans are approved by the Building Division, a final approval stamp from the Planning Division may still be required before your permit can be issued. The Building Permit Counter will forward the plans to Planning for review. You will be contacted when your plans are ready for permit issuance.

Please do not contact Planning Division. You will be notified when ready for permit issuance.
