This is to certify that we have issued a valid Workers' Compensation insurance policy in a form approved by the California Insurance Commissioner to the employer named below for the policy period indicated.

This policy is not subject to cancellation by the Fund except upon 10 days advance written notice to the employer.

We will also give you 10 days advance notice should this policy be cancelled prior to its normal expiration.

This certificate of insurance is not an insurance policy and does not amend, extend or alter the coverage afforded by the policy listed herein. Notwithstanding any requirement, term or condition of any contract or other document with respect to which this certificate of insurance may be issued or to which it may pertain, the insurance afforded by the policy described herein is subject to all the terms, exclusions, and conditions, of such policy.

Starter Strip Shingle

Goes on right—right away
Introducing the new Starter Strip shingle from Owens Corning® Roofing—a world leader in building materials. This product eliminates the need for cutting shingle tabs to create a starter row, saving installation time and money!

1. Starter Strip is packaged two pieces per shingle, 16 shingles per bundle, 100 lineal feet.
2. Perforation down the center allows for easy separation.
3. Once apart, the Starter Strip shingles should be aligned next to one another with the sealant toward the eave.

Starter Strip shingle advantages:

- Speeds installation and helps improve safety.** Starter Strip shingle eliminates the need to cut off tabs or headlap.
- Saves labor.** It's easy for a single person to position Starter Strip shingle on the roof.
- Maximum compatibility.** Use with any shingle that has an exposure of up to 6".
- Improves job quality.** Puts the sealant appropriately at the eaves.
- Cost savings.** There's no need to cut down 3-tab shingles to use as a starter strip.
- Clean look.** Starter Strip shingle provides a straight edge at the eave and along the rake.
- Exceptional bonding strength.** Continuous sealant ensures an effective seal between the starter and the first course of shingles.
