Installation Location  
**1959 Caddington Dr**  
**RCH PALOS VRD, CA 90275**

Date  
**1/26/2016**

## Congratulations!

Your system design is complete and you are on your way to clean, more affordable energy. Based on the information in your System design, there are some amendments we need to make to your Power Purchase Agreement (the "PPA"). The amendments are as follows:

- We estimate that your System's first year annual production will be 3,313 kWh and we estimate that your average first year monthly payments will be \$44.17. Over the next 20 years we estimate that your System will produce 63,203 kWh. We also confirm that your electricity rate will be \$0.1600 per kWh, (i.e. electricity rate \$0.1600 and tax rate \$0.0000). Your electricity rate, exclusive of taxes, will never increase more than 2.90% per year.

**By signing below, you are agreeing to amend your PPA and you are agreeing to all of the new terms above. If you have any questions or concerns please contact your Sales Representative.**
