------------------------------	-----------------------------------	------------------------------------	---------------------	---------------------------------------	-----------------------------	-----------------------

The following areas were considered to be inaccessible for inspection by the licensee, as indicated in Section 1990, paragraph (c) of the Structural Pest Control Act Rules and Regulations: Furnished interiors, inaccessible attics, and portions thereof; stall shower over finished ceilings; such structural segments as porte cocheres, enclosed bay windows, buttresses and similar areas to which there is no access without defacing or tearing out lumber, masonry or finished work; built-in cabinet work; floors beneath coverings, areas where storage conditions or locks make inspection impracticable.

This report covers the findings of conditions evident on the day of inspection. Subsequent conditions, infestations and/or infections are not covered by this report.

The exterior surface of the roof was not inspected. If you want the water tightness of the roof determined, you should contact a roofing contractor who is licensed by the Contractors' State License Board.

No painting, plastering or stucco patching will be performed by this company unless otherwise stated.

If recommended work is performed by someone other than this company, a reinspection of the repairs completed will be performed within four (4) months of the original inspection date and a reinspection fee will be charged and must be paid at the time of reinspection.

Payment for certification and/or work completed is due (COD) at the time services are performed. If paying by credit card (VISA & MASTERCARD only) please provide your credit card information at least 72 hours in advance, this is generally how long it takes to process credit card payments. Credit card payments are accepted for services OVER \$200.00. If an escrow is involved, payment is due regardless of escrow closing on the closing date given. Payment is late once the original closing date is past.

IF SCHEDULED WORK IS CANCELLED WITH LESS THAN FOUR (4) WORKING DAYS NOTICE A CANCELLATION FEE OF 20% OF THE JOB COST WILL BE CHARGED.

Unless otherwise stated in this report, ALL WORK PERFORMED BY THIS COMPANY IS GUARANTEED FOR A PERIOD OF TWO YEARS. This guarantee does not cover infestations or infections which may occur after the date of the inspection. For an annual fee, this company will provide a yearly control service. This service includes a yearly inspection and treatment of any infestations found. A Control Service Contract will be sent upon request.

NOTICE TO OWNER "Under the Mechanics Lien Law any structural pest control company which contracts to do work for you, any contractor, subcontractor, laborer, supplier or other person who helps improve your property, but is not paid for his or her work or supplies, has right to enforce a claim against your property. This means that after a court hearing, your property could be sold by a court officer and the proceeds of the sale used to satisfy the indebtedness. This can happen even if you have paid your structural pest control company in full if the subcontractor, laborers or suppliers remain unpaid".

To preserve the right to file a claim or lien against your property, certain claimants such as subcontractors or material suppliers are required to provide you with a document entitled "Preliminary Notice". Prime contractors and laborers for wages do not have to provide this notice. A Preliminary Notice is not a lien against your property. Its purpose is to notify you of persons who may have a right to file a lien against your property if they are not paid.

"State law requires you be given the following information: CAUTION-PESTICIDES ARE TOXIC CHEMICALS. Structural Pest Control Companies are registered and regulated by the Structural Pest Control Board and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that, based on existing scientific evidence, there are no

appreciable risks if proper use conditions are followed to that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized".

If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu, headaches, dizziness, nausea, tearing, coughing, nose and throat irritation or develop shortness of breath, double vision, unusual drowsiness and weakness, or tremors contact your physician, or poison control center (800) 222-1222 and your pest control company immediately.

For further information contact any one of the following: Andy's Termite & Pest Control (310) 534-2700; for Health Questions - the County Health Department (213) 240-8203; for Application Information - the County Agricultural Commissioner (626) 575-5466 and for Regulatory Information - the Structural Pest Control Board (800) 737-8188 2005 Evergreen Street, Suite 1500, Sacramento, CA 95815.

Due to varying types of construction and age of the building, original material sizes may not be available. This company cannot guarantee that the replacement material will match existing material specifications.

"NOTICE: reports on this structure prepared by various registered companies should list the same findings (i.e. termite infestations, termite damage, fungus damage, etc.). However, recommendations to correct these findings may vary from company to company. You have a right to seek a second opinion from another company."

Local treatment is not intended to be an entire structure treatment method. If infestations of wood destroying pests extend or exist beyond the area(s) of local treatment, they may not be exterminated.

If any additional damage is found during the process of repairs a new price will be quoted. To continue the work a signed authorization for the additional damage will be required before any additional work is to be completed or a signature declining to have the additional work completed will be required.

"This is a separated report which is defined as Section I/SectionII conditions evident on the date of inspection. Section I contains items where there were visible evidence of active infestation, infection or conditions that have resulted in or from infestation or infection. Section II items are conditions deemed likely to lead to infestation or infection but were no visible evidence of such was found. Further inspection items are defined as recommendations to inspect area(s) which during the original inspection did not allow the inspector the access to complete the inspection and cannot be defined as Section I or Section II.

This inspection is limited to the interior of the townhouse only at the request of the agent. The Structural Pest Control Board Rules & Regulations Section 1991 states that we must recommend further inspection of the entire structure and that all accessible evidence of wood-destroying pests be removed or covered.

The stall shower was not water tested due to being constructed over a finished ceiling.

NOTE: The attic was also inspected.

NOTE: There were no findings and/or recommendations at the time of this inspection.
