### WATER-CONSERVING PLUMBING FIXTURES AND CARBON MONOXIDE DETECTOR NOTICE

(C.A.R. Form WCMD, 12/16)

Property Address: 17333 Brookhurst St #D5, Fountain Valley, CA 92708

#### 1. WATER-CONSERVING PLUMBING FIXTURES

#### A. INSTALLATION:

- (1) Requirements: (a) Single-Family Properties. California law (Civil Code §1101.4) requires all single-family residences built on or before January 1, 1994 to be equipped with water-conserving plumbing fixtures after January 1, 2017. (b) Multifamily and Commercial Properties. Civil Code §1101.5 requires all multifamily residential and commercial properties built on or before January 1, 1994 to be equipped with water-conserving plumbing fixtures after January 1, 2019. Additionally, on and after January 1, 2014, a multifamily residential and commercial property built on or before January 1, 1994 that is altered or improved is required to be equipped with waterconserving plumbing fixtures as a condition of final approval if the alteration or improvement increases floor area space by more than 10 percent, or has a cost greater than \$150,000, or for any room in a building which requires a building permit.
- (2) Exceptions: These requirements do not apply to (i) registered historical sites, (ii) real property for which a licensed plumber certified that, due to the age or configuration of the property or its plumbing, installation of waterconserving plumbing fixtures is not technically feasible, or (iii) a building for which water service is permanently disconnected. Additionally, there is a one-year exemption for any building slated for demolition, and any city or county that has adopted a retrofit requirement prior to 2009 is itself exempt. (Civil Code §§1101.6, 1101.7, and 1101.9.)
- B. Disclosure of Water-Conserving Plumbing Fixtures: Although the installation of water-conserving plumbing fixtures is not a point of sale requirement, California Civil Code §§1101.4 (single family properties beginning 2017) and 1101.5 (multifamily and commercial properties beginning 2019) require the seller to disclose to the buyer the requirements concerning water-conserving plumbing fixtures and whether the property contains any noncompliant water fixtures.
- C. Noncompliant Water Fixtures: Noncompliant water fixtures are any of the following: (i) any toilet manufactured to use more than 1.6 gallons of water per flush, (ii) any urinal manufactured to use more than one gallon of water per flush, (iii) any showerhead manufactured to have a flow capacity of more than 2.5 gallons of water per minute, (iv) any interior faucet that emits more than 2.2 gallons of water per minute. (Civil Code §1101.3.) Buyer and Seller are each advised to consult with their own home inspector or contractor to determine if any water fixture is noncompliant.

#### **CARBON MONOXIDE DETECTORS:**

#### A. INSTALLATION:

- (1). Requirements: California law (Health and Safety Code §§13260 to 13263 and 17296 to 17296.2) requires that as of July 1, 2011, all existing single-family dwellings have carbon monoxide detectors installed and that all other types of dwelling units intended for human occupancy have carbon monoxide detectors installed on or before January 1, 2013. The January 1, 2013 requirement applies to a duplex, lodging house, dormitory, hotel, condominium, time-share and apartment, among others.
- (2). Exceptions: The law does not apply to a dwelling unit which does not have any of the following: a fossil fuel burning heater or appliance, a fireplace, or an attached garage. The law does not apply to dwelling units owned or leased by the State of California, the Regents of the University of California or local government agencies. Aside from these three owner types, there are no other owner exemptions from the installation requirement; it applies to all owners of dwellings, be they individual banks, corporations, or other entities. There is no exemption for REO properties.
- B. DISCLOSURE OF CARBON MONOXIDE DETECTORS: The Health and Safety Code does not require a disclosure regarding the existence of carbon monoxide detectors in a dwelling. However, a seller of residential 1-4 property who is required to complete a Real Estate Transfer Disclosure Statement, (C.A.R. Form TDS) or a Manufactured Home and Mobile home Transfer Disclosure Statement (C.A.R. Form MHTDS) must use section II A of that form to disclose whether or not the dwelling unit has a carbon monoxide detector.

WATER-CONSERVING PLUMBING FIXTURES AND CARBON MONOXIDE DETECTOR NOTICE (WCMD PAGE 1 OF 2)

Property Address: 17333 Brookhurst St #D5, Fountain Valley, CA 92708

- C. COMPLIANCE WITH INSTALLATION REQUIREMENT: State building code requires at a minimum, placement of carbon monoxide detectors in applicable properties outside of each sleeping area, and on each floor in a multilevel dwelling but additional or different requirements may apply depending on local building standards and manufacturer instructions. An owner who fails to install a carbon monoxide detector when required by law and continues to fail to install the detector after being given notice by a governmental agency could be liable for a fine of up to \$200 for each violation. A transfer of a property where a seller, as an owner, has not installed carbon monoxide detectors, when required to do so by law, will not be invalidated, but the seller/owner could be subject to damages of up to \$100, plus court costs and attorney fees. Buyer and Seller are each advised to consult with their own home inspector, contractor or building department to determine the exact location for installation of carbon monoxide detectors. Buyer is advised to consult with a professional of Buyer's choosing to determine whether the property has carbon monoxide detector(s) installed as required by law, and if not to discuss with their counsel the potential consequences.
- 3. LOCAL REQUIREMENTS: Some localities maintain their own retrofit or point of sale requirements which may include the requirement that water-conserving plumbing fixtures and/or a carbon monoxide detector be installed prior to a transfer of property. Therefore, it is important to check the local city or county building and safety departments regarding point of sale or retrofit requirements when transferring property.

The undersigned hereby acknowledge(s) receipt of a copy of this Water-Conserving Plumbing Fixtures and Carbon Monoxide Detector Notice.

		(5) Loose or missing bird stopping or roof flashing.
	DE.	(6) Rain gutters without metal or noncombustible gutter covers.
4.	A.	ENSIBLE SPACE REQUIREMENTS (only required to be completed if criteria in 1A(2) are met):  DEFENSIBLE SPACE ADVISORY: Public Resources Code § 4291 requires that, in order to minimize the risk of fire affecting a building or structure on the Property, a defensible space around the improvement be maintained within 100 feet of the improvement. Many local governments have enacted a local vegetation management ordinance for that same purpose.
	_	(Collective, "defensible space laws.") Effective July 1, 2021, Civil Code § 1102.19 requires disclosures regarding compliance with defensible space for certain specified properties.
	B.	<ul> <li>DEFENSIBLE SPACE COMPLIANCE ((1) applies unless (2), (3), or (4) is checked):</li> <li>(1) NO LOCAL ORDINANCE, BUYER shall obtain documentation of compliance with the State defensible space law; No local ordinance: There is no local ordinance requiring proof of compliance with defensible space laws. Buyer shall obtain documentation of compliance within one year of Close Of Escrow. This requirement only applies if there is a state or local agency, or other governmental entity, or qualified non-profit entity in the jurisdiction where the Property is located that is authorized to inspect the Property and provide documentation of compliance ("Authorized Inspector").</li> </ul>
	OR	(2) NO LOCAL ORDINANCE. SELLER within the previous 6 months has already obtained documentation of compliance with the State defensible space law: There is no local ordinance requiring Seller to provide proof of compliance with defensible space laws, but Seller voluntarily obtained documentation within the last 6 months, from an Authorized Inspector.
