480 Rosecrans Ave offers a rare opportunity to acquire a well-capitalized 7-unit multifamily asset in the highly sought-after Sand Section of Manhattan Beach, one of Southern California's most supply-constrained and desirable coastal rental markets.

The property features a townhome-style configuration with a highly attractive unit mix of (2) 3-bed/3-bath, (4) 2-bed/2-bath, and (1) 1-bed/1-bath units. Six of the units include private outdoor balconies, enhancing livability and supporting strong tenant demand in this beach-oriented submarket.

Since April 2024, ownership has completed approximately \$200,000 in capital improvements, including full plumbing and electrical renovations in Units 1, 2, and 7, new heating systems in Units 1, 2, and 4, and a new AC and heating unit in Unit 7. Additional infrastructure upgrades include a 400 AMP electrical service with underground connection, new subpanels in multiple units and the laundry room, and an upgraded main plumbing line connected to the city, providing long-term operational stability and reducing near-term capital expenditure risk.

Exterior improvements include new patios for Units 1, 2, and 3, further enhancing tenant appeal. In addition, the property features a new 356 square foot storage room that is ready for subdivision into five rentable storage units, offering potential for additional ancillary income.

Complemented by on-site laundry facilities and carport parking for each unit, the property delivers strong in-place cash flow with a 4.85% current CAP rate, while benefiting from exceptional long-term appreciation fundamentals driven by Manhattan Beach's demographics, limited multifamily supply, and coastal location.

480 Rosecrans Ave represents a compelling opportunity for investors seeking a stabilized, well-improved coastal asset with durable income and meaningful upside in one of Los Angeles' premier beach communities.

City Overview

Forbes has named Manhattan Beach one of America's most expensive areas. The Manhattan Beach real estate market outprices the Los Angeles-Long Beach-Anaheim Metro average per square foot by almost three times. The median price of homes currently listed in Manhattan Beach is \$2,599,000 and values have gone up 10.2% over the past year.

Among its many public parks, Polliwog Park is the largest and most frequented and has a small lake, open-air concert amphitheater for community events, playground equipment, picnic tables, and a fenced dog exercise area. Marine Avenue Park and Live Oak Park have several lighted ball fields, basketball courts, tennis courts, and an indoor racquetball facility.

Manhattan Beach is commonly featured in pop culture such as in The Beach Boys' song "Surfin' U.S.A." and TV shows like *Weeds*, *Hannah Montana* and *The O.C.*

County Overview

480 Rosecrans Ave
Manhattan Beach CA 90266

Los Angeles

Los Angeles County is the most heavily populated county with approximately 9.9 million people, including about 1 million that live in unincorporated areas of the county. The metropolis – formed by the six neighboring counties of Los Angeles, Ventura, Kern, San Bernardino, Riverside, and Orange – is home to approximately 19 million residents. Los Angeles County is home to one of the most educated labor pools in the country and offers a labor force of more than 4.7 million, of which more than 1.5 million are college graduates. Los Angeles County has the largest population of any county in the nation, exceeded only by eight states. According to the United States Conference of Mayors, Los Angeles County boasts a GDP among the twenty largest in the world. Los Angeles County's continued economic growth, in contrast to other areas of the state and nation, is due to its diversified economy and abundant, well-trained workforce.

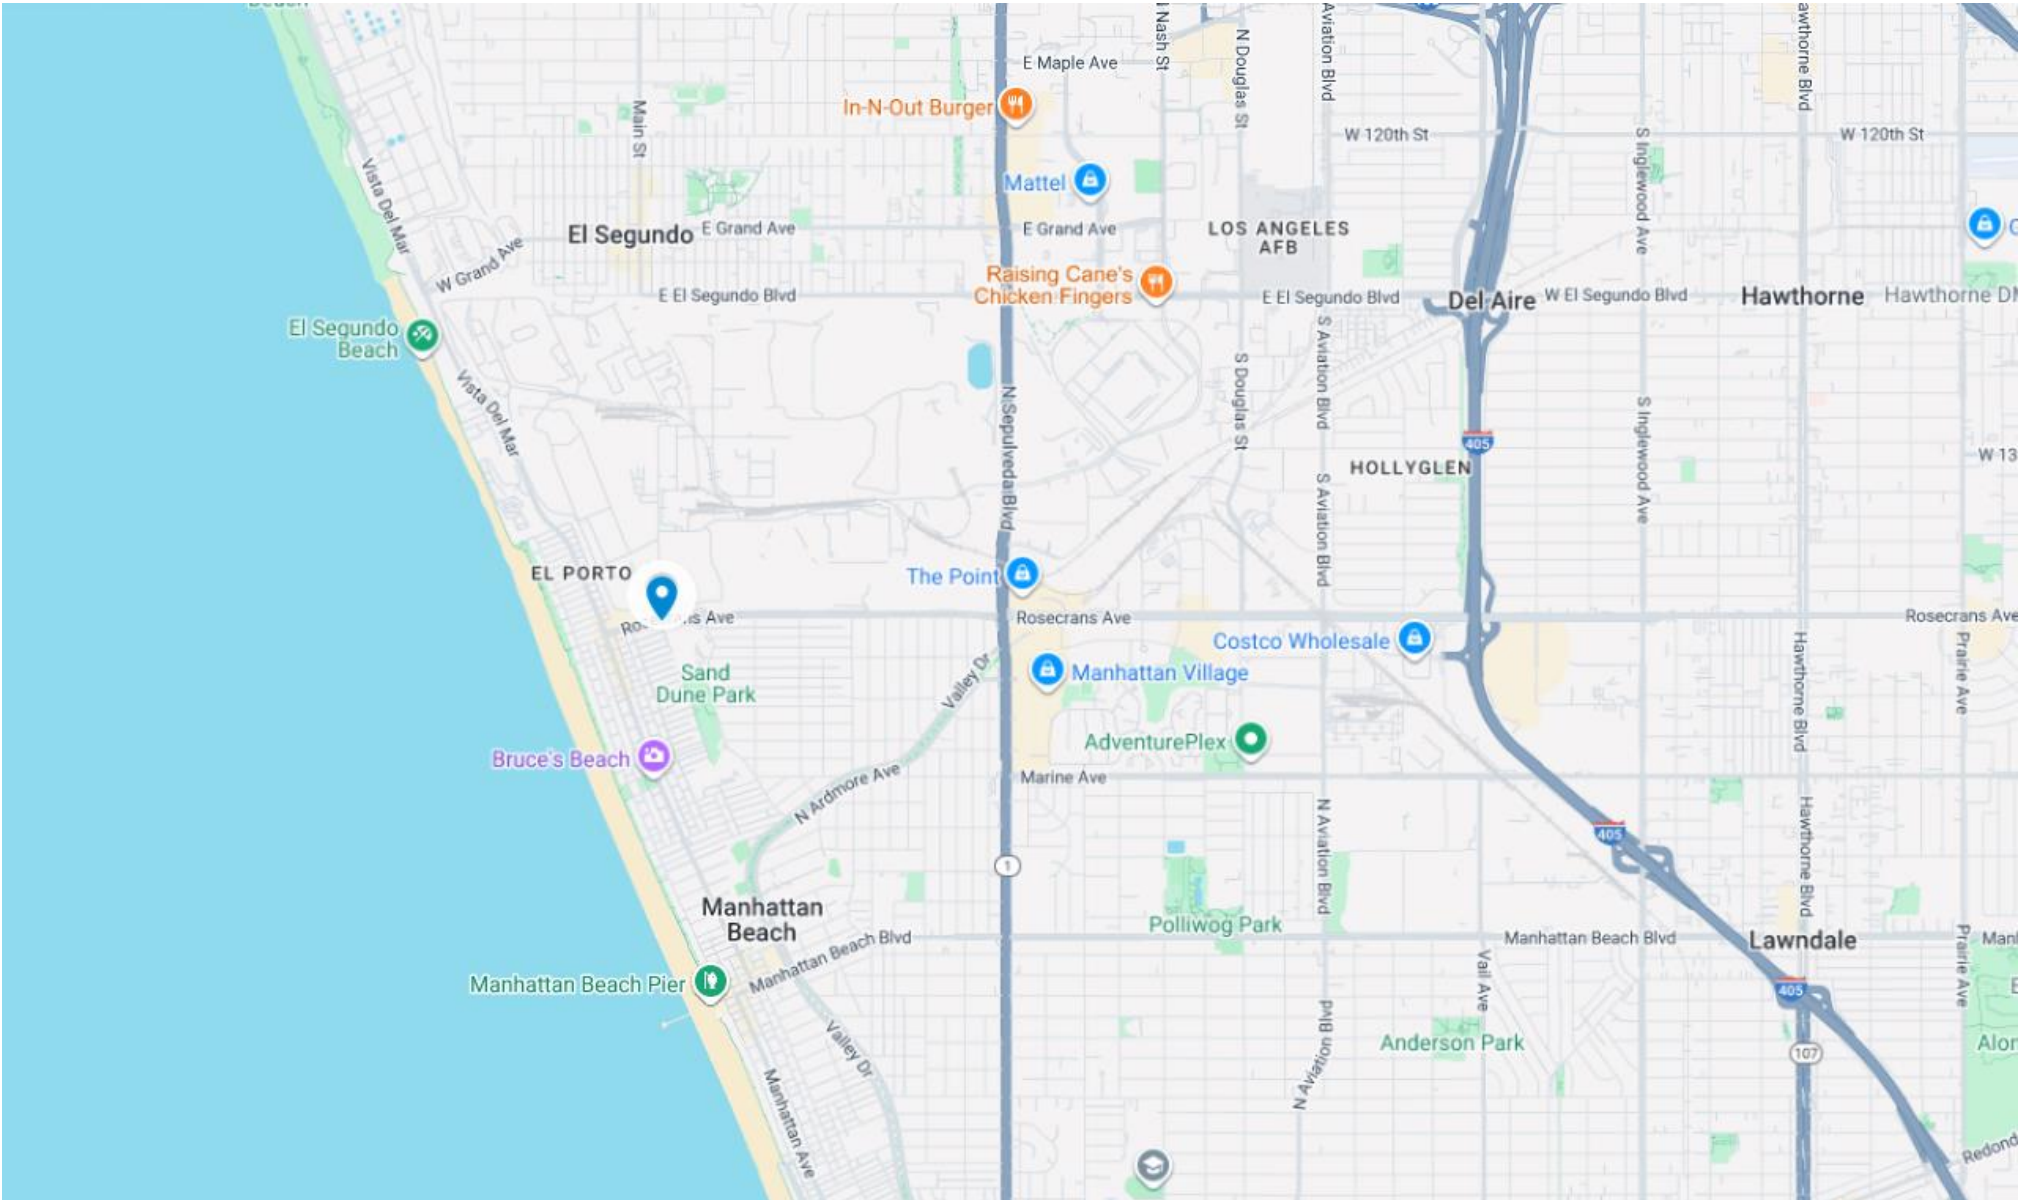

Los Angeles County is well located on the Southern Coast of California, and covers 4,061 square miles, including the San Clemente and Santa Catalina islands. The county is comprised of approximately 88 vibrant and diverse cities hosting more than 244,000 business establishments – the greatest concentration in the state. Los Angeles County has a Gross Domestic Product (GDP) of approximately \$446 billion – placing it among the top 20 economies in the world. The combined GDP of Los Angeles and its five surrounding neighboring counties places it in the top 10. California is generally considered to be in the top five.

If Los Angeles County were its own nation, its economy would be the 18th largest in the world. It is home to more than 244,000 businesses, with more minority and women owned businesses than any other state in the nation and is the nation's top international trade center and manufacturing center. Los Angeles is recognized worldwide as a leader in entertainment, health sciences, business services, aerospace and international trade. Because the Los Angeles area is so large and diverse, it has something to offer everyone. While Hollywood and the Los Angeles beach culture are part of our collective image of Los Angeles, the city also has more museums than any other city and some of the best hotels in the world.
