# THE OFFERING

## **SB8 Exempt w/ LAR4 Zoning & Tier 3 TOC!**

The Samimi Investment Group at Lyon Stahl Investment Real Estate proudly presents **350 N Hayworth Ave**—a prime redevelopment opportunity located in the heart of Beverly Grove, 90048. The property currently features a vacant, fire-damaged 4-unit building totaling 5,070 square feet and is ready for demolition. Sitting on a 7,526 square foot LAR4-zoned lot, the site benefits from an SB-8 exemption, as it has remained unoccupied for over five years. This exemption opens the door to a range of development options that do not require the replacement of low-income housing.

Almost RTI-approved plans include a 20-unit multifamily project consisting of 16 one-bedroom, one-bathroom units and 4 two-bedroom, two-bathroom units, with three designated as Extremely Low Income (ELI). There is flexibility to relocate the affordability covenant as long as the overall bedroom count remains equivalent.

Alternative development scenarios include a small lot subdivision supporting four to six single-family homes or a 100% affordable housing project under Executive Directive 1 (ED1). This site represents a rare blank canvas in one of Los Angeles' most sought-after neighborhoods, offering strong potential for a range of high-value development strategies.

**MOBBIL**

Greetings,

We know that creative projects requires a unique combination of drive, ambition, skills and technical knowledge, at mobbil we do our best to provide a turnkey design solution for our clients that is both realistic and extraordinary!

Mobbil Inc., a California Incorporated AEC company of registered Professional Civil Engineers (License # C79581) has prepared the preliminary project understanding, and the feasibility study for the above-referenced project. We have used a dynamic collection of information from agencies planning and zoning records to create this study. Our information is industry standard and to the best of our knowledge is accurate and complete. However, we strongly urge that your organization discuss these studies with and forward this letter, together with information regarding the project and contracts, to a project specific liability insurance consultant, and, as with all contractual matters, we recommend that you consult with legal counsel.

Before finalizing the Project documents here, we need your instructions regarding bonds and insurance. If you have any particular bond or insurance requirements for this Project, or you have your own bond or insurance clauses, specifications, requirements, or standard provisions, please send those to us. Indicate not only the types and amounts of coverage desired, but also how you want the standard provisions of the enclosed General Conditions and Supplementary Conditions documents to be modified. Please furnish us with specific wording for our guidance in each instance.

We expressly disclaim the responsibility or liability for the purchase or sale of this subject property based on this initial feasibility study, which is not to be used as a binding document for the development choices of the site. If you have questions or comments, please contact me at 310-909-3564 , or [bbozorgnia@mobbil.com](mailto:bbozorgnia@mobbil.com).

Sincerely,

Behrouz Bozorgnia, PE, CEO

# DENSITY + FLOOR AREA + LIMITATIONS

ACTUAL NUMBER OF UNITS WILL BE DETERMINED AFTER CONCEPTUAL DESIGN

## DENSITY & FAR CALCULATIONS

Property Zoned: R4-1

Base Density: 1 unit per 400 sq.ft.

Total Lot Area: 7,527 sq.ft. + (10 x 50)

Buildable Area: 4,799.2 sq.ft.

Base Floor Area Ratio: The base FAR is 3:1 which allows construction of 3 times the buildable area.

Total Floor Area Allowed by Zoning Code: 4,799.2 sq.ft. x 3 = 14,397 sq.ft.

## MARKET RATE

Density Allowed :  $8,027 / 400 = 20$  units (round down per zoning code)

FAR Allowed : 14,397 sq.ft.

## TOC

TOC Tier 3 if Qualified: Up to 70% Density Bonus, and increase in FAR by 50% i.e. 4.5:1

Density Allowed (Mixed Income):  $21 \times 1.7 \approx 36$  units (roundup per the zoning code)

FAR Allowed (Mixed Income):  $4,799.2 \times 4.5 = 21,596$  Sq.ft.

Density Allowed (100% TOC):  $21 \times 1.8 \approx 38$  units

FAR Allowed (100% TOC):  $4,799.2 \times 4.65 = 22,316$  Sq.ft.

## AB2097 + TOC

Density Allowed (Mixed Income): 36 units

FAR Allowed (Mixed Income): 21,596 Sq.ft.

No Parking Required

## AB2345 (State Density)

Density Allowed (100% Affordable) : Unlimited

FAR Allowed (100% Affordable): 14,397 sq.ft.

No Parking Required

3 Story or 33 Feet Height increase

## CHIP - MIIP

Unlimited Density Bonus, and increase in FAR by 45% i.e. 4.35:1

Density Allowed (Mixed-Income): Unlimited units

FAR Allowed (Mixed-Income):  $4,799.2 \times 4.35 = 20,876$  Sq.ft.

No parking required.

2 story or up to 22 ft additional height.

## SB684 - Small Lot Subdivision

Property not eligible for SB684 as the property is occupied by tenants.

## LIMITATIONS

Height: Not Restricted.

Setbacks:

- Front Yard Setback Required is at least 15 ft.
- Side Yard Setbacks Required at least 5 ft and additional 1 ft for every story above 2nd.
- Rear Setback Required at least 15 ft and additional 1 ft for every story above 3rd.

Required Parking:

- 1 Space Per Unit < 3 Habitable Rooms.
- 1.5 Space Per Unit = 3 Habitable Rooms.
- 2 Space Per Unit > 3 Habitable Rooms.
- If TOC tier 3 qualified, 0.5 space per unit.

## EXISTING USE

Per LA County Assessor's, 5,070 sq.ft. 4-Unit Residential Building.

# 100% AFFORDABLE HOUSING DEVELOPMENT

## EXECUTIVE DIRECTIVE 1 (ED 1)

### EXECUTIVE DIRECTIVE 1 (ED 1)

ED 1 applies to all Shelter projects and 100 Percent Affordable Housing Projects with an active or valid City Planning application or referral form filed with City Planning, and any ED 1 eligible projects under review by LADBS or LAHD.

A housing project with five or more units, and with all units affordable either at 80% of Area Median Income or lower (U.S. Department of Housing and Urban Development (HUD) rent levels), or at mixed income with up to 20% of units at 120% AMI (California Department of Housing and Community Development (HCD) rent levels) and the balance at 80% AMI or lower (HUD/TCAC rent levels), as technically described here: A Housing Development Project, as defined in California Government Code Section(§) 65589.5, that includes 100% restricted affordable units (excluding any manager's units) for which rental or mortgage amounts are limited so as to be affordable to and occupied by Lower Income households, as defined in California Health and Safety Code §50079.5, or that meets the definition of a 100% affordable housing development in CA Government Code §65915(b)(1)(G), as determined by the Los Angeles Housing Department (LAHD).

As stated in ED 1, projects requiring a legislative action (e.g., General Plan Amendment, Zone Change, Height District Change,) or projects seeking a deviation from development standards (e.g., adjustment, variance, specific plan exception, waiver of dedication/Improvement), and subdivisions are ineligible for the ED 1 Ministerial Approval Process. Projects that require consideration of a Coastal Development Permit or are subject to the Subdivision Map Act are also ineligible. In no instance shall the project be located in a single family or more restrictive zone.

Projects eligible for the ED 1 Ministerial Approval Process shall be exempt from California Environmental Quality Act (CEQA) as a ministerial project and from Site Plan Review procedures.

Through the ED 1 Ministerial Approval Process, City Planning will review only the objective development standards of the Zoning Code and of any applicable Specific Plans, Redevelopment Plan, Historic Preservation Overlay Zone, Community Plan Implementation Overlay or other Zoning Overlay areas. Any requested State Density Bonus and LAMC bonuses, incentives, waivers and concessions that are allowable through the incentive programs may be used to achieve compliance with applicable objective zoning standards.

If a project changes at any time in the review and construction process such that it no longer meets ED 1 eligibility criteria, the project becomes disqualified from ED 1 streamlining and all prior determinations on the project become inapplicable.

All plan check and inspection procedures will be expedited for review and approvals in the permitting and inspection process within the given applicable timelines of ED 1 and within the boundaries of state and local guidelines.

#### Menu of Incentives are as below:

1. Yard/Setback
2. Lot Coverage
3. Lot Width
4. Floor Area Ratio
5. Height
6. Open Space
7. Density Calculation
8. Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access

#### Waiver or Modification of any Development Standard(s) Not on the Menu.

The decision-maker shall approve a Density Bonus and requested waiver or modification of any development standard

- All Tiers - Up to a 25% decrease in required minimum lot width

Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access.

Height:

- Total Height - When height or number of stories is limited, this height increase shall permit a maximum of:
  - Tier 1 and 2 – One additional story up to 11 additional feet
  - Tier 3 – Two additional stories up to 22 additional feet
  - Tier 4 – Three additional stories up to 33 additional feet
  - Exception - When height limit of 45 feet or less, or located within a Specific Plan or overlay district that regulates height, any height increases over 11 feet to be stepped-back at least 15 feet from the exterior face of the Ground Floor of the building located along any street frontage.
- Transitional Height:
  - Tiers 1 and 2 - Height limit shall be stepped-back at a 45 degree angle as measured from a horizontal plane originating 15 feet above grade at the property line of the adjoining lot in the RW1 Zone or more restrictive residential zone or Specific Plan subarea.
  - Tier 3 – The building height limit shall be stepped-back at a 45 degree angle as measured from a horizontal plane originating 25 feet above grade at the property line of the adjoining lot in the RW1 Zone or more restrictive zone or Specific Plan subarea.
  - Tier 4 – Within the first 25 feet of the property line abutting or across the street or alley from the RW1 or more restrictive zone the building height limit shall be stepped-back at a 45 degree angle as measured from a horizontal plane originating 25 feet above grade at the property line of the adjoining lot in the more restrictive zone or Specific Plan subarea.

# MIXED INCOME INCENTIVE PROGRAM (EXPANDED ADMINISTRATIVE REVIEW)

A project shall be eligible for up to four additional incentives. A project can request the incentives listed below

## **Yards**

C Zones - Side, Rear, and Front Yards. Projects may use yard requirements for the RAS3 zone. Projects on commercially zoned sites next to RD or more restrictive zones may have a rear yard of at least five feet.

R Zones - Front yard reductions are limited to no more than the average of the front yards, regardless of a required building line of adjacent buildings along the same street frontage. Alternatively, if a site is a corner lot or adjacent to a vacant lot, the front yard setback may align with the facade of the adjacent building along the same front lot line. If there are no adjacent buildings, no reduction is permitted. If a project occupies all the lots on an entire street frontage, a reduction to the front yard is permitted as long as it corresponds to the same dimension as an increase to the rear yard. Side and Rear Yards up to a 30% decrease in the required width or depth of any individual yard or setback is permitted.

## **Ground Floor Height**

A project may request a 30% reduction in any ground floor height requirement.

## **Transitional Height**

Any requirements for reduced building heights when a project site is adjoining a more restrictive zone, shall need to be met.

## **Ground Floor Activation**

Where nonresidential Floor Area is required, that requirement may be reduced by 50 percent and be satisfied by providing services and assistance to residents of the building or the general public.

## **Building spacing & Passageways**

Up to a 30% reduction in the space between buildings as required pursuant to Section 12.21C.2(a).

Up to a 50% reduction in the required passageway width per Section 12.21C.2(b) or the space provided to meet side yard requirement, whichever is greater.

## **Commercial Parking**

A project may request the elimination of any requirement to provide new or maintain existing automobile parking spaces associated with a commercial use that is proposed in conjunction with the project.

## **Lot Coverage**

A project may request up to a 20% increase in lot coverage limits if the landscaping meets a minimum of 30 points under the Landscape and Site Design Ordinance point system.

## **Lot Width**

A project may request up to a 25% reduction from a lot width requirement, provided that the landscaping for the project meets a minimum of 30 points under the Landscape and Site Design Ordinance point system.

## **Open Space**

A project may calculate its usable open space requirement as 15% of the total lot area or 10% of the total floor area confined within the perimeter walls of the provided Residential Units, whichever is greater, provided that the overall design of the project meets a minimum of 30 points under the Landscape and Site Design Ordinance point system. Common Open Space shall constitute at least 50% of the usable open space calculated under this incentive and shall be provided as outdoor space.

## **Density Calculation**

The area of any land required to be dedicated for street or alley purposes may be included as a part of the lot area for purposes of calculating the maximum density permitted by the underlying zone in which the project is located.

## **Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access**

## **Relief from Development Standard**

20% relief from any Zoning code Development standard, each request will be counted as separate incentive.
