New announcement for Pepper Tree Village Association, Inc.

Pool/Spa

Hi,

The pool and spa are in the process of being refurbished! Pool and spa were drained and prepped on Thursday and prep work for the plaster and spa skimmer replacement is being done through Saturday.

The lights in both pool and spa will not be on because they will burn out without the water being present. This will make the property much darker than usual even with the walkway lights. Please exercise extreme caution when walking in those areas.

Both of the areas are taped off and unfortunately some residents will be inconvenienced trying to access their units. We appreciate your cooperation while the work is being done which I'm advised could take 2-4 weeks, depending on weather and if any problems are discovered beyond the work we contracted for.

Thank you for your patience and consideration while we get these long awaited upgrades to our community.

Best to all,

Oaktree Properties
