Thank you for participating in the Government Sponsored Debris and Hazard Tree Removal Program administered by the California Office of Emergency Services (CalOES), Cal Recycle and Butte County. Your property is now cleared for you to initiate rebuilding efforts. Butte County Development Services will be notified of this clearance so that building permits may be issued.

To protect your property and the environment, erosion control Best Management Practices (BMPs), if applicable, should remain or be in place on your property until new construction is completed. BMPs are protective measures that stabilize disturbed areas to minimize erosion, prevent site runoff pollution, and protect our water resources.

Sincerely,

The Park and Thompson Fire Recovery Team
