

The phase I Environmental Site Assessment has been performed in general conformance with the scope and limitations of The American Society for Testing Materials (ASTM) E1527 of the proposed property. Any exceptions to, or deletion from, this practice are described in Section 3.0 of this report. **This assessment has revealed no evidence of significant environmental conditions in connection with the subject property. Based upon the information reviewed to-date, no further assessment of the subject property is considered necessary at this time.**
