Technician: Austin Kellogg

SERVICE	DESCRIPTION	QTY	PRICE	TOTAL
DRAIN-MISC-204	After running the camera through the line, we found that the sewer line under the home is horribly broken open. These pipes under the house are the old cast-iron pipe from the build of the home. We also found a section of clay sewer line out under the grass area that is horribly damaged with roots and is collapsing. We will down in the grass area about 4 feet deep and exposed the section of clay sewer line. It is horribly damaged out under the front yard. We will cut out about 4 feet of the underground sewer line, and install a new clean out in this grass location between the two white rocks. The cleanouts will be ground level with access lids so that it is flush and pretty with the grass. We will use our Jetters and Descalers to grind out the sewer line upstream from the cleanout that we install install. We will grind out the pipe all the way up to the restroom connection points. We will use cured in place pipeline technology to line the sewer line all the way up to the connection points under the restroom. This will sever off the connection point for the kitchen and the laundry. After the line has secured in place, we will go in with our reinstatement robotics and reinstate the connection point where the kitchen and laundry tie into the lined sewer line that we just repaired. We will backfill with native soil and put the grass sod back around our new clean out lids. We have given our customer a 15% discount which drops this option down to \$17,832.00. 25 year warranty against breakage or leaks. This warranty is transferable to a new owner.	1.00	\$17,832.00	\$17,832.00

SUB-TOTAL	\$17,832.00
TAX	\$0.00
TOTAL	\$17,832.00

Thank you for choosing Drain Town Rooter Inc

CUSTOMER AUTHORIZATION

THIS IS AN ESTIMATE, NOT A CONTRACT FOR SERVICES. This estimate is provided by Drain Town Rooter Inc as a good faith evaluation of work to be performed at 4792 Collins Lane, Yorba Linda, CA 92886 USA. It is based on our initial assessment and does not account for potential material price increases or additional labor and materials that may be required due to unforeseen issues arising during the project. The final cost of the work may vary from this estimate, potentially significantly. This is not a guarantee of the final price for the work to be performed. By signing below, I accept this estimate, authorize Drain Town Rooter Inc to proceed with the work as outlined, and agree to pay the full amount for all work performed, including any additional services required.
