Understand Net Energy Metering (NEM) billing

You are billed annually for your energy charges because they can be offset by energy credits over your 12-month billing period. Any charges not offset by credits will become due at the end of your 12-month billing period.

You also receive a monthly bill. It reflects the minimum amount due each month, which supports the cost of maintenance and operation for providing electricity.

Get a discount on your bill every month

Your income may qualify you for discounted bills through the CARE or FERA program. To enroll or learn more, visit sce.com/careandfera or call 1-800-798-5723.

Recibe un descuento en tu factura cada mes

Si cumples los requisitos de ingresos, podrias recibir descuentos en tus facturas gracias a los programas CARE o FERA. Para inscribirte o obtener mas infomacion, visita sce.com/carefera o llama al 1-800-798-5723.

Important information

What are my options for paying my bill?

On-line	Pay one-time or recurring on **www.sce.com/bill**	
Mail-in	Check or Money order	
In Person	Authorized payment locations	1-800-747-8908
Phone	QuickCheck	1-800-950-2356
	Debit & credit card	1-833-425-1440
Other	PayPal, Venmo, Apple Pay and Google Pay	

Electronic check processing

Your check payment will be processed as a one-time Electronic Fund Transfer (EFT). With EFTs, funds may be withdrawn from your account the day we receive your payment. Your check will not be returned, but will appear on your financial statement.

Rates and applicable rules: Available at www.sce.com or upon request.

Past due bills

When is my bill past due? It is past due 20 days after the preparation date, which was 09/17/25.

- Reconnecting service that has been disconnected requires a Service Connection payment (non-residential only).
- Unable to pay: If payment arrangements were not extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission.
- For safety reasons, if service is disconnected, please ensure any sensitive or potentially hazardous equipment is unplugged on the day of reconnection. For additional home safety tips, visit www.sce.com/safety or call SCE at 1-800-655-4555.

What is the Late Payment Charge (LPC)?

0.6% will be applied to the total unpaid balance if payment is not received by the due date on this bill (except for CARE and state agency accounts).

What is a rotating outage?

Rotating outages are controlled electrical outages used to avoid widespread or uncontrolled blackouts. Your Rotating Outage Group number is located on page 1, upper left, of your SCE bill. Your rotating outage group number may change at any time. For more information, visit www.sce.com/rotating outage.

What is the Power Charge Indifference Adjustment (PCIA)?

The PCIA is a charge to ensure that both SCE customers and those who have left SCE service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by SCE on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

Disputed bills

If you believe there is an error on your bill *or have a question about your service, please call* ***Southern California Edison (SCE)*** *customer support at* ***1-800-655-4555****. If you are not satisfied with SCE's response, submit a complaint to the California Public Utilities Commission (CPUC) at www.cpuc.ca.gov/ complaints/. The CPUC's Consumer Affairs Branch (CAB) handles billing and service complaints and can be reached by:*

Telephone 1-800-649-7570 (8:30 AM - 4:30 PM, Monday - Friday)
Mail CPUC, Consumer Affairs Branch, 505 Van Ness Ave., Room 2003, San Francisco, CA 94102

If you have limitations hearing or speaking, contact the California Relay Service, which is for those needing assistance relaying telephone conversations. Dial 711 or one of the numbers below to be routed to a California Relay Service provider in your preferred mode of communication.

Type of Call	*English*	*Spanish*
TTY/VCO/HCO to Voice	*1-800-735-2929*	*1-800-855-3000*
Voice to TTY/VCO/HCO	*1-800-735-2922*	*1-800-855-3000*
Speech-to-Speech Relay	*1-800-854-7784*	*1-800-854-7784*

To avoid having service turned off while waiting for the outcome of a complaint to the CPUC regarding the accuracy of your bill, contact CAB for assistance. If your case meets the eligibility criteria, CAB will instruct you on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is reviewed to keep your service turned on.

Definitions

- **Baseline Credit:** The baseline credit provides reduced electricity rates on electricity used up to the baseline allocation for the region that you live in.
- **CA Climate Credit:** Credit from state effort to fight climate change. Applied monthly to eligible businesses and semi-annually to residents.
- **Wildfire Fund Charge:** Supports the California Wildfire Fund which covers costs associated with catastrophic wildfires, including payment of bonds issued by the California Department of Water Resources (DWR)
- **Public Purpose Programs Charge:** Funds state-mandated programs for low income discounts, energy efficiency, renewable energy and R&D.
- **SCE Generation:** For recovering energy procurement and generation costs for that portion of your energy provided by SCE.

Off peak	-449
Total electricity usage this month in kWh	**187**

Your next billing cycle for meter 222011-749425 will end on or about 10/15/25.

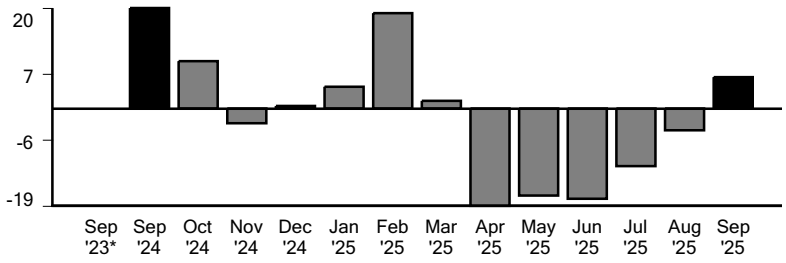

Consumption *is the total amount of electricity imported from SCE.*

Net generation *is the amount of excess electricity exported to the grid by your generating system.*

Total electricity usage *is your system's total net generation minus your total consumption.*

Your daily average electricity usage (kWh)

2 Years ago: N/A Last year: 19.66 This year: 6.23

* No data available

Details of your new charges

Your rate: TOUD-4-9PM
Billing period: 08/18/25 to 09/16/25 (30 days)

Delivery charges - *Cost to deliver your electricity*		
Basic charge	30 days x $0.03100	$0.93
Nonbypassable charges (NBCs)		
CTC, NDC, PPPC	628 kWh x $0.03336	$20.95
Wildfire fund charge	628 kWh x $0.00595	$3.74
Subtotal of your new charges		$25.62
State tax	187 kWh x $0.00030	$0.06
Your new charges		**$25.68**

Your Delivery charges include:
- *$0.93 distribution charges*

Your overall energy charges include:
- *$1.12 franchise fees*

Additional information:
- *Service voltage: 240 volts*
- *Net Surplus Compensation (NSC) option: Rollover*

Things you should know

Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

Stay in Control

If you're behind on payments, enrolled in a payment plan, or facing disconnection, we offer options and energy management solutions to help you stay in control of your bill and costs. Learn more at www.sce.com/billsupport.

Details of your tracked charges

Your rate: TOUD-4-9PM

- *Your current month energy charge total: $95.11*
- *Your year-to-date energy charges: -$215.44*
- *Your year-to-date kWh: -1,370 kWh*

Rate Identification Number - RIN

USCA-SCSC-0400-0000

In the future, you might use the Rate Identification Number (RIN) to program smart devices like smart thermostats, EV chargers, or energy management systems once the manufacturer has enabled its use. Once these smart device features are available, simply scan the QR code using the smart device app for setup. To learn more, visit sce.com/helpcenter/rin.

SCE CUSTOMER CONNECTION

SOUTHERN CALIFORNIA EDISON'S (SCE) ELECTRIC RATE OPTIONS

Below are brief descriptions of various available rate options for Southern California Edison's (SCE) residential customers. SCE provides these descriptions to help customers understand what rate options are available to help manage monthly electric bills. Your current rate is listed on your electric bill. Your bill separates the costs of generation and costs related to the delivery of electricity. The charges for generation include costs related to the operation of SCE's electric generating plants, plus the cost of purchasing power from other sources. The California Department of Water Resources (DWR) obtained electricity on behalf of SCE. SCE has repaid the cost of the associated contracts and is now returning the cash reserves held to support the contracts through the DWR Energy Credit. The credit will end once the reserves are fully repaid to customers. Eligibility requirements, terms and conditions apply and may vary for each rate schedule.

Please refer to SCE's Tariff Books for a complete list of terms and conditions of service at **www.sce.com/rateoptions** or call us at **1-800-655-4555** to see if you qualify for one of the energy and money-saving rates below.

RATE SCHEDULES

DOMESTIC (D):
This rate schedule serves domestic customers and is applicable to those who are individually metered by SCE and who live in single-family accommodations or individually metered single-family dwellings in a Multifamily Accommodation (e.g., houses, townhouses, condominiums, apartments, rental units, manufactured houses or mobile homes). Schedule D has a lower energy rate for all electricity used up to the Baseline* amount. Energy used up to this point is considered Tier 1 usage. Electricity used above Baseline is priced higher. Schedule D also has a daily Basic Charge and Minimum Charge that are independent of the energy charges and cover a portion of costs for services such as meter reading and customer billing.

***Baseline** *"Baseline" refers to a specific amount of energy allocated to residential customers for the essential portion of energy use for such things as lighting, cooking, heating and refrigeration. The baseline allocation, or Tier 1 usage, is charged at a lower rate than energy used in excess of that amount. As usage increases beyond the Tier 1 allocation, the price for energy in each subsequent tier is charged at a higher rate. This rate structure is meant to incentivize energy conservation. California's regulated energy utilities are mandated to allocate a Baseline quantity to each residential customer, based on that customer's geographic area, the season (winter or summer), and whether the customer has a single source of energy (i.e., if the customer's home is "all electric") or a combination of gas and electric ("basic" service). Customers can check the "Details of your new charges" section of their bills to see which tier their usage falls into each month. An additional Heat Pump Water Heater (HPWH) baseline quantity may apply to customers attesting to having a HPWH and served under either Schedule TOU-D-4-9 or TOU-D-5-8.*

***Medical Baseline** is an additional allowance of kilowatt hours (kWh) charged at the Baseline rate, and is available to customers or their household members who require the regular use of electrical life support or essential medical equipment, or have a qualifying illness. The standard Medical Baseline allocation is 16.5 kWh per day, in addition to the daily Baseline allocation residential customers receive. A medical discount of 11 percent will be provided to customers served under Schedule TOU-D Option PRIME regardless of the number of Medical Baseline allocations.*

Schedule D customers may be eligible for other rate options that could further lower their electric bills, such as:

DOMESTIC - SUMMER DISCOUNT PLAN (D-SDP):
This plan is applicable to domestic service customers residing in individually metered, single-family accommodations with central air conditioning, in which a portion of the customer's electrical air conditioning load is subject to disconnection as initiated by an SDP Event Trigger, from SCE's service by SCE through a direct load-control device, with or without optional customer-controlled override capabilities. This plan is not applicable to customers receiving a Medical Baseline Allocation for air conditioning. To participate in this plan, customers must have an appropriate SCE direct load-control device installed, programmed, and activated.

CALIFORNIA ALTERNATE RATES FOR ENERGY (CARE) DISCOUNT:
This program provides a discount for income-qualified customers of at least 32.5 percent. Household income must be at or less than the CARE income guidelines, defined as 200 percent of the Federal Poverty Guidelines. Qualifying income guidelines are shown on the CARE application.This discount may also be applicable with other residential rate schedules.

FAMILY ELECTRIC RATE ASSISTANCE (FERA) DISCOUNT:
This program offers an 18 percent discount to income-qualified households. There must be a minimum of three or more persons residing in a household and the total household income must be at or less than 250 percent of the Federal Poverty Guidelines. Qualifying income guidelines are shown on the FERA application. FERA is not available to CARE customers.This discount may also be applicable with other residential rate schedules.

EDISON SMARTCONNECT® OPT-OUT (ESC-OO):
This rate is available to residential customers who do not wish to have a wireless, communicating meter, known as Edison SmartConnect® meter, installed at their premises (Opt-Out Customers). Under this schedule, Opt-Out Customers shall receive service using the meter or meter form that had been installed at the customer's premises prior to the installation of an Edison SmartConnect meter (i.e. analog or non-analog, non-smart digital meter). There is a one-time initial fee and a reoccurring monthly fee to opt-out, which applies for three years from the time the customer elects to opt-out.

CRITICAL PEAK PRICING (CPP):
The CPP rate offers a discount during the summer months for bundled service customers (those whose electric power, transmission, distribution, billing, metering and related services are provided by SCE). The customer must have an interval meter or an Edison SmartConnect® program-ready meter. When electricity demand and prices climb, SCE will activate CPP "events" (weekdays from 4:00 p.m. – 9:00 p.m., excluding holidays) during which energy charges increase significantly. However, if customers reduce or reschedule usage to lower demand times of day during these events, CPP may help lower electric bills. Participants receive bill protection up to the first 12 months. Customers who receive Medical Baseline allocation(s) or customers served under the Smart Energy Program option are not eligible for service under this rate.

CUSTOMERS WHO USE MOST OF THEIR ELECTRICITY DURING "OFF-PEAK" HOURS COULD BENEFIT FROM A TIME-OF-USE (TOU) RATE SCHEDULE.

TIME-OF-USE DOMESTIC (TOU-D):
TOU-D is applicable to customers eligible for service under Schedule D or receiving the CARE or FERA discount. Schedule TOU-D has several rate options: Option 4-9 PM, Option 4-9 PM-CPP, Option 5-8 PM, Option 5-8 PM-CPP, Option PRIME, and Option PRIME- CPP. Option PRIME is a new Option intended for higher usage customers that have load-modifying electric technologies, including those who have electric vehicles (EVs), behind-the-meter energy storage systems and/or electric heat pumps. Customers who have EV load that is separately metered are now eligible for service under this Schedule and will receive a meter credit for the separately metered EV load.

(continued)

SCE CUSTOMER CONNECTION

SMART ENERGY PROGRAM (SEP):
This is an optional program offering annual bill credits to eligible customers who have technology installed at the home authorized by SCE for direct participation in energy events. Presently, Wi-Fi enabled smart thermostats controlling a working central air conditioning system supported by an SCE approved third-party entity are the only technology available for participation in the Smart Energy Program. This program is only available to residential customers with an Edison SmartConnect® meter. Smart Energy Program is not applicable to customers enrolled in any other Demand Response program, such as Summer Discount Plan, or customers receiving a Medical Baseline allocation. Smart Energy Program events can be called for up to 4 hours per day between 11:00 a.m. and 8:00 p.m. on non-holiday weekdays.

COST RESPONSIBILITY SURCHARGE (DA-CRS, CCA-CRS, CGDL-CRS):
Cost Responsibility Surcharges (CRS) are applicable to Customer Generation Departing Load (CGDL), Direct Access (DA) Service customers, Community Aggregation (CA) customers, and Community Choice Aggregation (CCA) customers.

COMMUNITY CHOICE AGGREGATION SERVICE (CCA SERVICE):
Cities, counties, a Joint Power Authority, and certain other public agencies whose governing boards have elected to act as Community Choice Aggregators can purchase and sell electricity on behalf of utility customers within their service area(s). Under CCA Service, a Community Choice Aggregator is solely responsible for procuring and providing for the electric power needs (including ancillary services) of its customers, ensuring resource adequacy and renewable portfolio requirements for these customers, and scheduling and settling with the California Independent System Operator (CAISO). Community Choice Aggregators are required to meet certain requirements with the California Public Utilities Commission in addition to meeting financial and technical requirements with SCE. CCA customers are subject to additional charges as explained in Schedules CCA-CRS and CCA-SF.

Net Billing Tariff (NBT) also known as Solar Billing Plan
This optional rate is designed for customers who install eligible renewable generating facilities on their premises to generate electricity and offset their own electrical needs. Customers can size their systems up to 150% of their electrical requirements, provided they attest that the additional capacity will support electrification (such as adding an electric vehicle) within a year of interconnection. The generation facility must use renewable sources defined in Section 25741 of the Public Resource Code.*

All customers' net usage is billed according to their Otherwise Applicable Tariff, which must be a Time-of-Use rate schedule. Residential customers are required to be on the Prime option of TOU-D. Net generation is credited at the Avoided Cost Calculator rate, also known as the Energy Export Credit, based on the year the application was submitted. Additionally, residential customers can receive extra credits, known as the Energy Export Bonus Credit, for the first few years of the tariff, with these credits decreasing annually as specified in Schedule NBT.

*The renewable sources included in Section 25741 of the Public Resources Code are: biomass, solar thermal, photovoltaic, wind, geothermal, fuel cells using renewable fuels, small hydroelectric generation digester gas, municipal solid waste conversion, landfill gas, ocean wave, ocean thermal, or tidal current, and any additions or enhancement to the facility using these technologies.

Due to space limitations, a rate you may be eligible for may not appear. Please visit **www.sce.com/inserts-onserts** (under August 2025) or contact us if you'd like a complete listing of all available rates. Please email **Tariffs.Manager@sce.com** for a copy to be sent via email or U.S. Mail.
