Explanation to Mandatory Addendum #1

We understand Addendum #1 can present itself in a manner other than it was intended to be. Local in our approach, we have purchased and sold homes across the entire state of California. We think that transparency is paramount especially when it matters most. We approach the business of buying single family homes, remodeling and selling from a position of accessibility and frankness.

In order to properly handle a transaction we want the buyer of one of our homes to know as much or more as we do about the home we are selling. Naturally we want to sell our homes but more important than simply selling a home we want to make sure that the buyer is content when the purchase is complete.

Professional Inspectors are there to lift that burden from beginning to end during the home buying process for both buyers and sellers. They bring expertise in evaluating, documenting, and recommending during the home buying process and that is why we encourage buyers to do any and all professional inspections during the inspection period.

Addendum #1 has a sharp focus on risk removal from the selling corporation. One of the key issues with the business we are in is that as sellers we sometimes own homes for a very short period of time and it is impossible to know all details about a home that may have been built many years ago and may have had many owners prior. Another is that never do we occupy the home so the information we may know is limited to what we see on professional home inspections.

Thank you for your interest in our property, we look forward to working with you !
