Understand Net Energy Metering (NEM) billing

You are billed annually for your energy charges because they can be offset by energy credits over your 12-month billing period. Any charges not offset by credits will become due at the end of your 12-month billing period.

You also receive a monthly bill. It reflects the minimum amount due each month, which supports the cost of maintenance and operation for providing electricity.

Your new charges Due monthly	Year-to-date charges: -\$197.95 Settled at end of 12-month billing period (on or about 04/30/21)
Even if you have no year-to-date energy charges, you incur some monthly new charges.	You do not owe any energy charges as of this month. Only make a payment for this month's new charges. Keep track of your year-to-date charges, as you may have charges in the future. If you are a net generator at the end of your 12-month billing period, you may be eligible for net surplus compensation.
	You are in billing month 11 of 12.
