Customer Testimonials

"This review is for Genner in the water mitigation department and Dekel in the construction department. They both went above and beyond for me. There was a leak in my bathroom from the sink. First, Genner came in and demoed the bathroom, so he could dry out the area. He was at my house on a daily basis checking to make sure that the walls and flooring were drying out properly. Then once his part was completed, Dekel from the reconstruction department came in and gave me a free estimate. We were going through insurance, and he explained that they would not charge us, and instead look to the insurance to cover the costs. I never paid anything out of pocket for either services. I appreciated working with Green Planet Restoration so much that I have been speaking to Dekel to redo my kitchen and living room! This company is one of the good ones that you can trust!"

"Amazing company, amazing service, they go above and beyond especially when it comes to communicating and keeping you informed throughout the process. Will definitely recommend to others as well!"
— *Joey D.*

"We had a water damage due to a broken pipe, honestly I had no idea where to start, who do I need to call and what should be done .. I knew 0 about water damage. the plumber told me that I need to call a water damage company which i did, luckily and I truly mean LUCKILY the company send a guy name DAN which honestly I have no words to describe the help I received from this guy, he explained me step by step what's needs to be done before starting the process which I truly appreciated. His team arrived the morning after and they were so professionals, clean and made sure everything was done as it should be by the book. Dan handled everything himself not to make it difficult for me, always took my calls and always left me with no concerns, my experience with green planet restoration company and especially with Dan and his team was more then I can ask for. Thank you again Dan."
— *Orpaz T.*

"Great service, Project Manager was very thorough with what kind of work needed to be done for my house. Had a flooded kitchen due to toilet overflow. His crew came and fixed everything. Thank you Green Planet!"
