Soapstone countertops

<https://www.soapstones.com/anaheim-california/>

The Basics of Soapstone

Soapstone—also known as Steatite—is a metamorphic rock that consists primarily of talc.

Depending on the quarry from which it is sourced, this natural stone also contains varying amounts of other minerals such as micas, chlorite, amphiboles, quartz, magnesite, and carbonates. It is a relatively soft, very dense, highly heat-resistant material.

There’s no better material for kitchen countertops: Soapstone adds the perfect visual element to any kitchen, modern or traditional. You can either allow the natural patina to develop over time or oil the surface for a darkened sheen and more even appearance. Some of the features that make soapstone the perfect material for kitchen countertops and sinks include:

- No need for trivets or hotplates, you can set hot pots directly on soapstone counters
- Vinegar, cleaning chemicals, wine, and other acidic or corrosive substances won't damage soapstone
- Soapstone resists staining and won't be damaged by standing water
- No special cleaners or sealing required
- Huge variety of styles with different natural veining and colors

PRODUCT DESCRIPTION

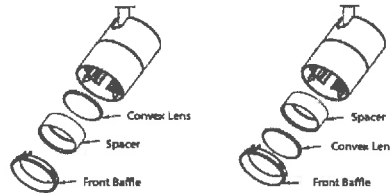

LED202 track luminaire offers driverless AC LED technology and easy changeable beam angles in field. Superior light output in a small, unobtrusive design. The high output LEDs outperform halogen 50W MR16. Developed for upscale residential and commercial environments.

FEATURES

- Driverless AC LED technology
- Compact integrated design
- Easy change of beam angles in field
- Outperforms halogen 50W MR16
- Consistent high quality beam pattern
- Accommodates 1 lens accessory
- 360° horizontal and 90° vertical aiming
- 50,000 hour rated life
- 5 year WAC Lighting product warranty

BEAMSHIFT™ TECHNOLOGY

LED202 track luminaires come with BeamShift™, allowing in-field change of beam angle simply by changing the location of the lens with a simple flat-head screwdriver.

Flood 40° Configuration
Convex Lens located behind the spacer

Spot 15° Configuration
Convex Lens located in front of the spacer.

SPECIFICATIONS

- Construction:** Die-cast aluminum with removable PC lens cap for easy change of lenses or accessories
- Finish:** Black (BK) and White (WT) powder coat paint.
- Driver:** Input voltage: 120VAC 50/60Hz.
- Light Source:** High Voltage AC LED module.
- Dimming:** Dims to 10%-100% with electronic low voltage (ELV) dimmer. Reference dimming report on website for compatibility.
- Standards:** ETL & cETL Listed.

ORDER NUMBER
