Understanding Your Net Metering Summary

Start Date: Net Energy Metering (NEM) is applied to your electric account over a 12-month billing period. Each 12-month period is referred to as a "Relevant Period". It is also referred to as your "True-Up" or "Settlement Period". The start date reflects the start of your current period.

True-Up Date: The date your current period ends. This date, also known as your NEM anniversary or settlement date, is when SDG&E will reconcile your account and automatically reset your account for a new period.

Total kWh: The net kWh for each billing period.

Event kWh: The net kWh used during the event period corresponding to your rate. The kWh identified during the event period will be used to calculate any event-related charges or credits.

NEM Charges: Represents the charges associated with the net kWh purchased from SDG&E during the billing period.

Discounts: Any discount or California Climate Credit received in a given month.

Applied Credits: Any generation credits that have been applied to your account. Generation credits are used to offset outstanding net metering charges.

Remaining Credits: The amount of credits associated with the billing periods when you were a net over-generator. This amount will be applied to your Net Metering balance to offset outstanding net metering charges. You can see when your credits were applied under the "Applied Credits" section.

Cumulative Balance: Represents the running total of your NEM charges and any applied credits. It is important to note, that this does not include any remaining credits, which have not yet been applied to your account.

YTD Net Metering Charges/Credits: The running total of the net metering charges and credits for the current "Relevant Period". This amount reflects your total net energy metering charges/credits and the total applied generation credits (NEM Charges + Applied Credits).

California Climate Credit: Represents the YTD California Climate Credit.

Minimum Charge Adjustment: The running total of any applicable minimum charges for the current "Relevant Period". If you are a net generator for the year, these basic service fees and any applicable taxes will represent all you have to pay.

Excess Generation Payment: Represents any excess generation payments at the time of your True-Up.

Additional Charges/Payments: The running total of any other charges or credits on this account, such as charges related to your gas service or payments that you have made during this "Relevant Period".

Current Account Balance: Represents your current net metering account balance.

Payment Required: Indicates whether or not a payment is required this month.

Please Note:

Credits are calculated based upon current rates in tariffs.

Beginning in 2011, any excess generation remaining at True-Up will be credited in accordance with Assembly Bill 920.

At the time of your annual True-Up, applicable excess generation is displayed as a negative in the YTD Totals for the total kWh.

If your Total kWh does not reflect a negative number at your True-Up, then you do not qualify for a payment.

Definitions

Baseline Allowance - A quantity of electricity or gas allocated by the CPUC for residential customers based on a percentage of average residential consumption and varying based on type of space heating, type of water heating, season, climatic zone and number of days in the billing period.

California Climate Credit - The state charges fees to reduce carbon pollution and increase the use of cleaner energy. These fees are returned to you as a credit. Households receive the electric credit twice a year and gas credit once a year. Small businesses receive the electric credit twice a year. Visit cpuc.ca.gov/climatecredit to learn more.

City of San Diego Franchise Fee Differential - A fee charged to SDG&E by the City of San Diego for the rights to operate within city streets.

Climate Zone - The CPUC established four Climatic Zones in California, based on annual average temperatures.

Competition Transition Charge (CTC) - Through this charge, SDG&E recovers costs for power plants and longterm power contracts approved by state regulators that have been made uneconomic by the shift to competition.

Delivery - Charges for the costs of owning, operating, and maintaining the transmission and distribution facilities to deliver power to customers.

Distribution - This line reflects charges to distribute power to customers. It includes power lines, poles, transformers, repair crews and emergency services.

Electricity Generation Charge - This charge is for the electricity you use and includes charges for the energy provided by both SDG&E and DWR. Electricity from DWR is owned by DWR, not SDG&E. If you purchase electricity from another supplier or buy electricity through SDG&E using hourly pricing, this charge appears only for informational purposes and will be offset by a credit.

Electricity Generation Credit - This credit offsets the Electricity Generation Charge.

kWh (kilowatt hour) - A common unit to measure electric energy consumption. A kWh equals 1,000 watts of electric power consumed for one hour of time.

Local Generation Charge - Recovers the costs associated with generation power suppliers that the CPUC has determined should be recovered from all benefiting customers.

Maximum Annual Demand - The highest Maximum Monthly Demand for the current and prior eleven billing periods.

Maximum Monthly Demand - The maximum demand during the current billing period.

Nuclear Decommissioning - This charge pays for the retirement of nuclear power plants.

Public Purpose Programs - This charge reflects the costs of certain state-mandated programs (such as low-income and energy efficiency programs).

Reliability Services (RS) - The Independent System Operator is required to ensure adequate generation to maintain electric system reliability. This means having enough generating facilities available to meet the demand for electricity at all times. The costs associated with this are passed on to SDG&E customers.

State Regulatory Fee - Charged to all utility users to pay for the California Public Utilities Commission (CPUC) operations.

State Surcharge Tax - Collected by the State of California for the conservation and development of energy resources in the state.

Therm - Unit of measurement for billing purposes, nominally 100,000 Btu.

Therm Multiplier - A therm multiplier is used to convert the heat content in natural gas (gas measured through the meter in cubic feet) into a billable unit, known as a therm. Cubic feet x therm multiplier = therms.

Total Rate Adjustment Component (TRAC) - This charge achieves legislative and CPUC subsidies such as maintaining the Commission approved tier differential between rates for usage up to 130% of baseline and usage above 130% of baseline; discounted rates for assistance programs; and elimination or modification of seasonality in rates by lowering Summer rates and increasing Winter rates.

Transmission - This charge pays for the delivery of high-voltage electricity from power plants to distribution points near your home or business. It includes the cost of high-voltage power lines and towers, as well as monitoring and control equipment.

Wildfire Fund Charge - The Wildfire Fund Charge is mandated by the CPUC to repay costs associated with wildfire damage after July 12, 2019.

SDG&E Policies and Notices

Electronic Check Processing - When you pay your bill by check, you authorize us to electronically process your payment. If your check is processed electronically, your checking account may be debited on the same day we receive the check. Your check will not be returned by your bank, however, the transaction will appear on your bank statement. If you do not wish to participate in this program, please have your account number ready and call 1-866-534-5152.

Rates & Rules - SDG&E's rate schedules and rules, on file and approved by the CPUC, are available on the Internet at www.sdge.com. Copies of applicable tariffs may also be obtained by calling 1-800-411-SDGE (7343) or visiting any company bill payment office.

Pay Before Date / Disconnection Policy - Your SDG&E bill is due and payable upon presentation and is past due if not paid within 19 days of the date mailed. If your payment has not been received by the "Due Date" shown on your bill, your SDG&E service is subject to disconnection, after proper notice has been provided. If your service is disconnected for non-payment, there may be additional service charges and you will be required to pay all past due SDG&E amounts before service is restored. Your SDG&E service could also be disconnected if the information provided on your application for service is false, incomplete or inaccurate. SDG&E will disconnect your services only for non-payment of those charges owed SDG&E.

If you are unable to pay your SDG&E bill in full due to a temporary financial hardship or due to a serious illness in the household, you need to call SDG&E before the expiration of this notice. Employees, including multilingual staff, are

available to assist with payment arrangements

If SDG&E fails to offer you payment arrangements, you may write to the Consumer Affairs Branch of the California Public Utilities Commission (CPUC), State Office Building, 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102, phone: 800-649-7570, email: consumer-affairs@cpuc.ca.gov, prior to disconnection of your SDG&E service. The Consumer Affairs Branch will review the complaint and issue its proposed resolution to you and SDG&E. If you are not satisfied, you may appeal the proposed resolution by filing a formal complaint. A more detailed explanation of disconnection policies, including your rights as an SDG&E customer, may be obtained by calling 1-800-411-SDGE (7343), or e-mail: info@sdge.com.

Disputed Bills / Service Complaints - If you believe there is an error on your bill or have a question about your service, please call SDG&E customer support at 1-800-411-SDGE (7343). If you are not satisfied with SDG&E's response, submit a complaint to the California Public Utilities Commission (CPUC) at www.cpuc.ca.gov/complaints/. Billing and service complaints are handled by the CPUC's Consumer Affairs Branch (CAB), 505 Van Ness Ave, Room 2003, San Francisco, CA 94102, phone: 1-800-649-7570.

If you have limitations hearing or speaking, dial 711 to reach the California Relay Service, which is for those needing assistance relaying telephone conversations. Dial one of the numbers below to be routed to a California Relay Service provider in your preferred mode of communication.

California Relay Service Phone Numbers:

Type of Call	Toll-Free Number
