SEWER REPLACEMENT BID

Upon psl of sewer line found multiple root intrusion in sewer resulting in sewer needing replacement.

- Estimate for replacing sewer using trench less pipe bursting technology, will need to excavate a total of 2 holes in front yard to access sewer, the first hole will be in marked area in planter by front window and another at property line approx 6ft deep, will replace approx 35FT of sewer using trench less pipe bursting method will reconnect to existing sewer using premium bands.

- due to root intrusions in street portion of clay pipe, from the down stream hole at property line a blown in liner will be inserted up to 20ft to re coat clay sewer and seal all joints from root intrusions, will hydro jet pipe to clean line before liner.

- * estimate includes city permits and inspection.
- * will backfill upon completion of work.
- * allow up to 2 days to fully complete scope of work.

TOTAL **\$7,500.00**
