

Hot Purple Energy

Certificate of Ongoing Purpleness

This home is powered by clean and renewable Solar Power installed by Hot Purple Energy. We are confident that after a year you will find that life is a little sweeter with solar power and of course less expensive as well.

*To Reflect: **110 Brian Ct.** HPE Solar System was commissioned:
December 7th 2016 (solar) & November 19th 2020 (batteries)*

HPE Custom Installation

System Details

19.62 Kilowatt System with 40 kWh of Storage
60 SunPower SPR-327NE-WHT-D Panels
3 SMA America SB6000TL-US-22 (240V) Inverters
3 Tesla Powerwalls*

Estimated Annual Production: 30,244 kWh **Estimated Annual Savings**:** \$9,400.00

*Energy is what Energy does, and this is very positive Energy!
It is our desire that Hot Purple Energy will continue to meet your energy saving needs for many years to come! New ownership will not affect the HPE Labor Warranty originally included with the system.*

*40 kWh of storage allows for most items in the home to retain power in a grid failure situation.
This amount of power will maintain power to essential loads and on AC throughout the night.

**Savings could be greater by allowing the batteries to take advantage of rate arbitrage with TOU rates.
