

System overview

Produces approximately  
18,828 kWh/yr

Includes  
Panels and Inverters

Service coverage

25 years

90% Production Guarantee

The system will produce 90% of our estimate, or we pay you for the difference.

25 years **Parts, Labor and Workmanship**

If any part of the system breaks, we'll repair or replace it. If there's an issue with the installation, we'll fix it.

10 years **Solar Roof Fasteners**

\*If you violate the terms and conditions of our agreement—including, but not limited to, tampering with the system—we may choose to revoke warranty coverage.

Our service cost and terms: We own the system and provide you with its electricity.

\$0.201/kWh

Year 1 solar rate

\$315.37/Month

Seasonality

Solar production typically peaks in the summer and dips in the winter.

Over the course of the year, the system is designed to produce 18,828 kWh

\* This chart is for demonstration purposes only. System production may differ.

Billing

The solar energy system and your local grid work together to power your home.

**THE SOLAR SYSTEM**  
Sunrun

Three ways to pay your bill

Your Sunrun bill stays the same each month\*, even if you produce more solar energy than expected.

- 1. Autopay
- 2. MySunrun.com
- 3. Over the phone at 1-855-478-6786

**UTILITY GRID**  
Your local utility

Your utility bill will vary based on how much utility energy you use and how much surplus solar energy you sell to the grid.

\*For the first 12 months. Does not include taxes, if applicable, or \$7.50 discount for auto-pay enrollment.

You can choose to stop receiving "prescreened" offers of credit from us and other companies by calling toll-free 888-567-8688. See prescreen notice below for more information.
