> Marcus & Millichap THE NEEMA GROUP

The Neema Group of Marcus & Millichap is pleased to present the Siejay Apartments, a 72-unit multifamily investment opportunity located at 1337 S Hoover St. in the Pico-Union neighborhood of Los Angeles. The subject property was originally a HUD Project-Based Section 8 property and was opted out of the HUD program in December 2009.

Situated on a large 80,888-square-foot lot, the property offers a rare opportunity for additional value creation, with a significant rental upside of over 68%. There is also potential to add 40 to 50 accessory dwelling units (ADUs), subject to HCD and city approval (Buyer to verify). The existing unit mix includes 12 one-bedroom and 60 two-bedroom apartments, supported by 74 parking spaces.

Siejay Apartments is well positioned for a Naturally Occurring Affordable Housing (NOAH) conversion, as 43% of the current tenants are voucher holders, while the remaining units rent for below approximately 80% of the area's median income (AMI). This favorable rent structure enhances the property's long-term stability and appeals to affordable housing investors. Additionally, its prime infill location provides residents with a Walk Score of 91 and seamless connectivity to public transit, including the Metro A and E Rail Lines and multiple Metro Local bus lines along S Hoover St, W Pico Blvd, and Venice Blvd. Beyond transit access, the property benefits from its central Los Angeles location, just a half mile from Loyola High School and close to major employment and cultural hubs. Convenient access to the 10 and 110 Freeways allows for an easy commute to Downtown LA, Koreatown, Westlake, and Mid-City.

With its combination of strong in-place income, development potential, and a unique path to property tax exemption through California's Welfare Exemption (RTC §214), Siejay represents a rare opportunity to align investment returns with long-term affordability preservation. The NOAH conversion pathway, paired with the potential to improve NOI by an estimated \$180,000 annually, creates a compelling value proposition for mission-driven investors and preservation-focused operators alike.

# Marcus Millichap

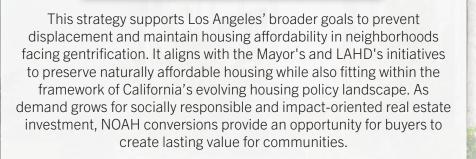

# NOAH Strategy: Naturally Occurring Affordable Housing

PRESERVATION-DRIVEN. MISSION-ALIGNED. TAX-ADVANTAGED.

## **THE OPPORTUNITY**

Siejay Apartments exemplifies a high-impact NOAH opportunity in line with Los Angeles' housing preservation goals. With 43% of tenants already voucher-supported and remaining rents below ~80% AMI, the property is well-positioned for a low-disruption affordability conversion that protects existing tenants while unlocking investor benefits.

# **ALIGNMENT WITH CITY & STATE INITIATIVES**

## WELFARE TAX EXEMPTION (RTC §214)

Ownership through a qualified nonprofit (or LP with nonprofit GP) allows eligibility for the California Welfare Tax Exemption, eliminating property taxes on qualifying units. Based on the current asking price, this strategy presents a pathway to a potential ~\$180,000/ year in increased net operating income, significantly increasing yield and valuation upon stabilization.

#### **CONVERSION PATHWAY**

The NOAH conversion process begins by acquiring the property through a nonprofit entity or limited partnership with a nonprofit managing member. Next, the ownership team income-certifies tenants to meet affordability thresholds, typically set at or below 80% of Area Median Income (AMI). A regulatory agreement is then recorded to formalize long-term affordability commitments, and finally, the exemption is filed with the LA County Assessor to obtain the property tax benefit.

## WHY IT WORKS

This strategy is effective because most tenants already qualify by income, meaning minimal operational disruption is required. Affordability is preserved without displacement, while the tax exemption dramatically enhances cash flow. By combining social impact with financial performance, the strategy attracts a wider buyer pool—including nonprofits, mission-driven funds, and ESG-focused capital—and directly aligns with LA's long-term housing policies and public priorities.

# **ADU Potential**

THE LARGE 80,888 SF LOT CREATES AN OPPORTUNITY TO ADD SEVERAL ADU'S VIA THE NEWLY PASSED SB 1211 (BUYER TO VERIFY).

# **Investment Highlights**

### NOAH Conversion Opportunity with Immediate Eligibility

Siejay Apartments is an ideal candidate for a Naturally Occurring Affordable Housing (NOAH) conversion. With 43% of tenants already on vouchers and the remaining rents below 80% AMI, the asset qualifies for income certification under California's Welfare Tax Exemption (RTC §214). New ownership can pursue full property tax relief while preserving affordability and tenant stability.

# Significant Rental Upside with Limited Disruption

Current 2-bedroom rents average ~\$1,311, while market comparables exceed \$2,200 — presenting over 68% rental upside. The property's existing affordability profile allows for low-friction compliance with NOAH guidelines while still offering long-term income growth potential through certification, turnover, or light value-add.

### Welfare Tax Exemption Enhances Cash Flow

By partnering with a qualified nonprofit or forming a limited partnership with a nonprofit managing member, buyers can pursue the California Welfare Tax Exemption, eliminating property taxes on qualifying units. This strategy significantly enhances net operating income and long-term yield while supporting public affordability goals.

#### \*

### **Rare Alignment with LA Housing Policy & Future Legislation**

Siejay directly supports Los Angeles' anti-displacement initiatives and the City's broader efforts to preserve naturally affordable housing in vulnerable neighborhoods. With strong tenant stability and below-market rents, the property aligns with key public priorities and is positioned as a model for impact-driven preservation investment in a high-demand urban submarket.

7

### 40–50 ADU Expansion Potential (Buyer to Verify)

Situated on a massive 80,888 SF lot, the property offers a rare development overlay with the potential to add 40–50 Accessory Dwelling Units (ADUs), subject to HCD and city approval. This provides an additional layer of value creation for long-term investors.

#### \*

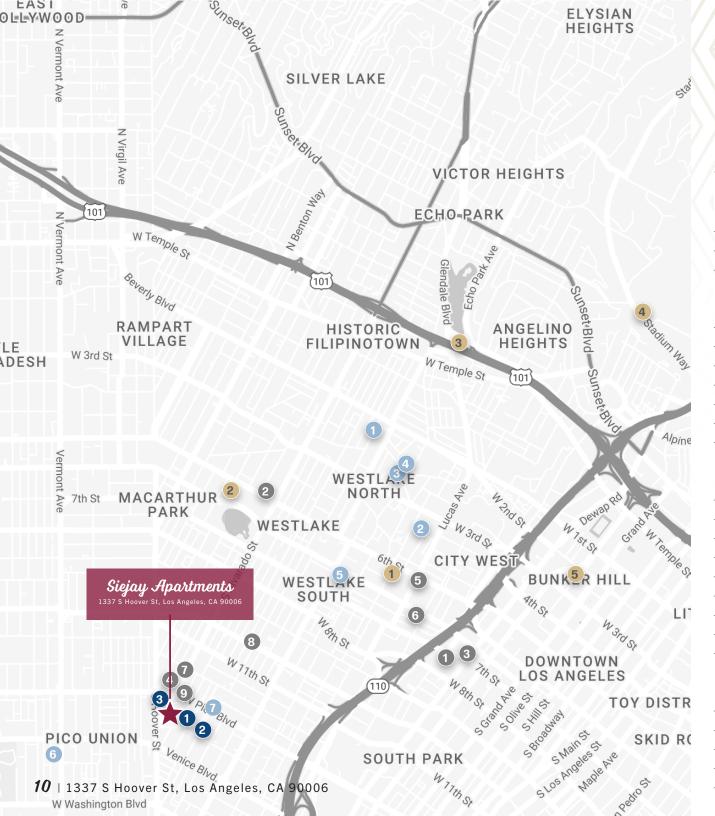

#### **Transit-Oriented Location in High-Demand Submarket**

Located in the heart of Pico-Union, Siejay boasts a Walk Score of 91 and seamless access to the Metro A & E Lines, major bus routes, and the 10 & 110 Freeways. Its central position supports strong tenant retention and long-term rent growth.

#### \*

#### Institutional Scale with Favorable Basis

Available as a portfolio with three other buildings, Siejay offers true scale for operators seeking to grow within LA's urban core. The offering price reflects a favorable cost per unit and square foot when compared to recent sales, with the added advantage of longterm affordability positioning.

# Westlake

**BRIDGING THE GAP BETWEEN** 

# Downtown LA & Koreatown\_

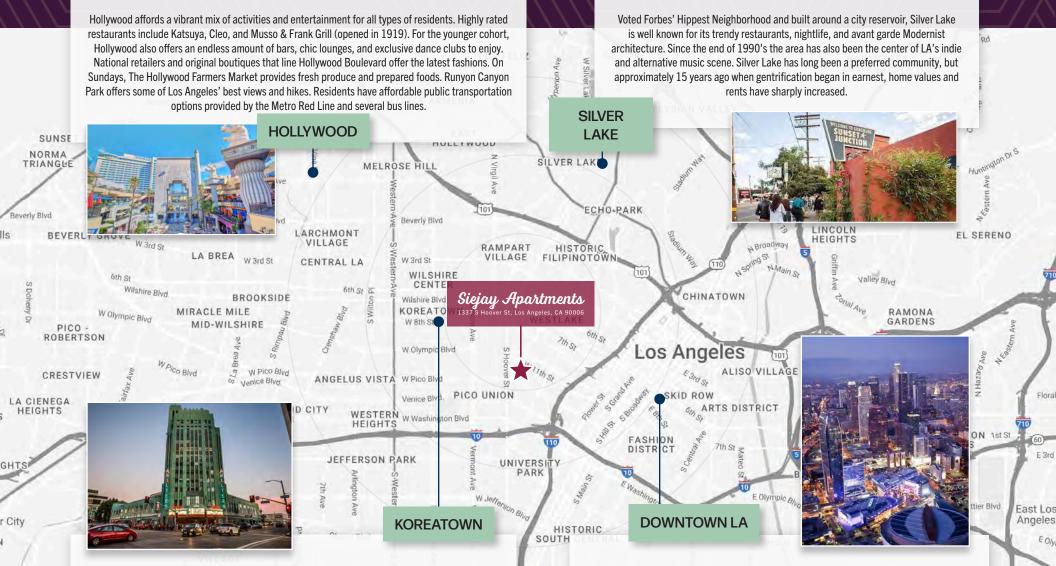

Westlake is adjacent to other notable neighborhoods, including Echo Park, Pico Union, Downtown and Koreatown. The neighborhood is extremely dense, with endless streets lined with small businesses. MacArthur Park, designated as the City of Los Angeles Cultural Monument #100, is located in Westlake and is adjacent to the Metro's Westlake/MacArthur Park Station, which affords access to the Red and Purple lines. Those lines provide public transportation toward Downtown, North Hollywood and toward Koreatown, with West Side extensions projected to be completed in 2027.

Westlake has recently seen a flurry of development and public safety initiatives, from mixed-use projects to new crosswalks. M2A Architects was contracted to construct a mixeduse project at the intersection of Olympic and Hoover that will feature 173 dwelling units, nearly 37,000 square feet of ground-floor commercial space and parking for 262 vehicles. Amidi Group, a San Francisco-based developer, is 50% completed their \$180 million 1027 Wilshire development. project spans nine stories and features 376 residential units, approximately 5,000 square feet of groundfloor retail space, and subterranean parking for more than 800 vehicles.

The Siejay Apartment central location near Downtown Los Angeles results in excellent walkability and acwcessibility for its residents. The properties are within walking distance of stops on the Metro Red and Purple lines, one stop away from the Metro Blue and Expo lines, within a block of stops for five bus lines, and at the heart of the Los Angeles freeway system.

# Siejay Apartments 1337 S Hoover Street, Los Angeles, CA 90006

Long celebrated for its art deco architectural heritage and immigrant community, today Koreatown has emerged as one of Los Angeles' most fashionable areas. As the densest part of Los Angeles, new residents flock to this neighborhood just west of Downtown to enjoy walkable amenities, fabulous restaurants, and recently opened boutique hotels like the Line and Normandie. The Metro Purple Line traversing Wilshire Boulevard in the heart of Koreatown will further attract new residents. Thanks to Korean and Latino immigrants, the area is dotted with highly rated ethnic eateries. The Downtown submarket of Los Angeles includes its central business district, which contains the nation's third largest employment pool. Additionally, this submarket features many major sports facilities, sightseeing opportunities, skyscrapers, and large multinational corporations. Downtown is also the hub of the city's freeway network and Metro rapid-transit system. LA Live is one of downtown's most innovative developments featuring sports and music venues, nightclubs, restaurants, a bowling alley, a museum, and movie theaters.
